

# DryBell F-1L3 Footswitch

- *This manual is valid for F-1L model as well.*

The F-1L3 Footswitch is an accessory built for the Vibe Machine pedal.

It is designed for multiple purposes:

- Tap Tempo
- Leslie FAST/SLOW mode
- Two Speed mode
- Cancel function

## 1 Versatile Compatibility

Not just for the Vibe Machine V-2 and V-3. It can be used with any pedal featuring a latching footswitch input.

## 2 Easy Connection

Simply connect the F-1L3 to your Vibe Machine's PEDAL+ expression input using a standard mono (or stereo) patch cable.

## 3 Technical Specifications

Simple latching footswitch wired tip to sleeve.

## 4 Compact Design

The F-1L3's small footprint (5 x 5cm / 2 x 2") easily fits on even the most crowded pedalboards.

## 5 Color

Matches the Vibe Machine V-3's blue finish.

## 6 Premium Quality

Built to last with durable aluminum construction and high-end components like Neutrik jacks and Alpha switches.

## 7 Package Contents

Each F-1L3 Footswitch comes with a DryBell pick and four self-adhesive rubber feet.

## 8 F-1L vs. F-1L3 models: What's the Difference?

The F-1L and F-1L3 footswitches are functionally identical. The only difference is the color and availability:

- F-1L: Originally available in graphite grey to match the Vibe Machine V-2, it is now discontinued.
- F-1L3: Currently available in blue to match the Vibe Machine V-3 and compatible with both the Vibe Machine V-2 and V-3.

Whether you have the F-1L in grey or the newer F-1L3 in blue, rest assured that both models offer the same functionality and seamless compatibility with your Vibe Machine V-2 or V-3 pedal.
